

Windwalker Guarantee

We stand behind our product. Each pair is fully guaranteed for a year. Should anything tear or break in that time, including the soles, we'll fix it absolutely free! Windwalker shoes and boots are designed to be refurbished or repaired, if needed as the years go on, increasing the lifetime of your custom footwear.

If you are looking for high quality handmade footwear you can afford, you've come to the right place!

Mary and Timothy Windwalker will design and individually construct a pair of "Wearable Art" that will stand the test of time and reflect your personal image, individuality and needs.

Windwalker Fine Footwear is a family-run business. Working out of their solar and wind powered studio in Snowflake Arizona, Mary and Tim create custom fit, custom designed footwear. Each pair is individually handmade by these two talented leather workers and with more than forty five years of combined expertise.

With proper care, your footwear will last ten to twenty years or longer!
