

*Windwalker Fine Footwear.  
The best custom footwear you can find!  
Your ideas and ours will create a custom, artistic creation  
to suite your style and individuality.*

At Windwalker, we start by getting to know the customer. An investment of this quality demands it. Since each pair is individually crafted, this leaves room for the wearer to help create a truly unique piece of art that reflects his or her own personal style and taste.

We have available a myriad of colors, leathers, beadwork, soles, and buttons to make your footwear distinctive and just right for you. Having made more than 3,500 pairs, one at a time, Tim and Mary's experience helps you to create the perfect shoes that fit your personality; from the simplest sun design with fringe to the most complex dragons with semi-precious stones.

After choosing the design and colors that you like, along with any one of our upgradable Vibram Soles, we take a soft cast of your foot. A casting takes about fifteen minutes, and then we can begin the process of building your footwear.

We take individual measurements that guarantee the shoe will fit you like a second skin, not unlike having a suit or dress tailored especially for you.

*A Windwalker Exclusive!*

All of our shoes and boots have many standard features starting with a heel guard and wrap around toe cap that covers your foot in two layers of leather and provides excellent ankle support. We also include a dome top on our shoes, a rolled leather edge for a fine-finished look, as well as extra leather colors at no extra charge.

Windwalker Fine Footwear wants to build the right pair of shoes for you. Let us be your choice for a custom pair of shoes or boots that will give you comfort, style and strength for many years to come. From the casual wearer choosing a simple design perfect for everyday wear, to the costumed fantasy enthusiast looking to put that perfect touch on a special outfit, we've got the skills you need.

*Windwalker wants to fulfill that desire for you!*

Don't just take our word for it... nearly one third of our business is from repeat customers, a testimony to the quality, service and satisfaction of our finely crafted handmade footwear!

*Our studio runs on solar and wind power. It is also a destination on the National Tour of Solar Homes and for the Concho, Arizona Elementary School annual renewable resources field trip.*
